

# TRAFFIC AND SAFETY MANUAL

## Chapter 4 – Signals 4F –Maintenance

### General

Originally Issued: 12-17-01, Last Revised: 12-17-01

All equipment shall be maintained to allow operations as designed and maximize safety. (See Section 4D.02 of MUTCD) This includes, but is not limited to:

- Detection equipment
- Controller and accessories
- Signal indications and signs
- Structures

If operations and maintenance are not satisfactory in the opinion of the Iowa DOT, and are not promptly corrected, the local jurisdiction will be responsible for removal of the installation.
